

Invoice Approval Policy & Purchase-Order Register

Orange Caterpillar Pvt Ltd · Accounts Payable · reference document

Your task

Twenty-five supplier invoices have arrived for payment. Check each one against this policy and the purchase-order register below. Clear the ones that pass every rule, and route the rest to a human with a clear reason. Nothing is ever paid automatically.

When an invoice may be auto-approved

Approve an invoice only if it passes ALL of the following. If any check fails, send it to a human with the specific reason.

- It quotes a purchase order that exists in the register and is still OPEN.
- The supplier name matches the vendor on that purchase order.
- The invoice amount is within 2% of the purchase-order amount (a three-way match tolerance).
- It is not a duplicate (the invoice number is new, and the same vendor and amount have not been seen before).
- All required fields are present: invoice number, date, vendor, GSTIN, and total.
- GST is charged correctly, at 18% of the amount.
- The invoice total is Rs 1,00,000 or less.

One hard rule: any invoice that fails even a single check above is routed to a human, never paid silently. High-value invoices (over Rs 1,00,000) always need a senior sign-off, even when everything else is clean. All amounts are in Indian Rupees (Rs); a foreign-currency invoice always goes to a human.

Purchase-Order Register

One purchase order per line: PO number | vendor | item | amount | status.

PO-1001	Sharma Traders Pvt Ltd	Office chairs (20 units)	Rs 80,000	OPEN
